10 (All Defendants)

11 15. Plaintiff repeats and realleges by reference each and every allegation
12 contained in Paragraphs 1 through 14 and incorporates the same as though fully set
13 forth herein.

14 16. At all times relevant, Plaintiff was employed by RBC Dain Rauscher,
15 Inc. and was a covered participant under the terms and conditions of the Plan.

16 17. Plaintiff was hired by RBC Dain Rauscher, Inc. on November 1, 1990.

17 18. On September 17, 2007, Plaintiff's employment was wrongfully
18 terminated without cause or prior notice. At the time of termination, Plaintiff held
19 the position of Managing Director.

20 19. In fewer than 120 days following termination, Plaintiff was due a
21 distribution under the Plan exceeding \$300,000.

22 20. Under the provisions of the Plan, Plaintiff was entitled to accelerated
23 vesting and distribution of plan benefits at the time of termination.

24 21. Defendants wrongfully breached the Plan and denied Plaintiff the
25 distribution he was entitled to under the Plan, all in violation of ERISA.

26 22. Plaintiff is informed and believes and thereon alleges that Defendants
27 wrongfully denied his distribution under the Plan and wrongfully terminated his
28 employment to avoid paying Plaintiff benefits he was due under the Plan.

1 23. Following the Defendants' denial of benefits under the Plan, Plaintiff
2 exhausted all administrative remedies required under ERISA and any further attempt
3 to resolve this matter would be futile. Plaintiff has performed all duties and
4 obligations on Plaintiff's part to be performed under the Plan.

5 24. As a proximate result of the aforementioned wrongful conduct of the
6 Defendants, and each of them, Plaintiff has damages for loss of wages, loss of

12 **SECOND CAUSE OF ACTION**
13 **VIOLATION OF THE AGE DISCRIMINATION IN EMPLOYMENT ACT**
14 **OF 1967 ("ADEA")**

15 (Defendants Royal Bank of Canada and RBC Wealth Management
16 Company, formerly RBC Dain Rauscher, Inc.)

17 26. Plaintiff repeats and realleges by reference each and every allegation
18 contained in Paragraphs 1 through 25 and incorporates the same as though fully set
19 forth herein.

20 27. The Age Discrimination in Employment Act, 29 U.S.C. §§ 622 and
21 623(a), prohibits discrimination against employees who are at least forty years of
22 age. Plaintiff alleges that Defendants discriminated against him with respect to his
23 employment, including without limitation termination of his employment and denial
24 of the benefits he was entitled to, because of his being over forty years of age.

25 28. Plaintiff alleges that Defendants Royal Bank of Canada and RBC
26 Wealth Management Company, formerly RBC Dain Rauscher, Inc., wrongfully
27 terminated Plaintiff because of his age and to prevent him from receiving the
28 distribution he was entitled to under the Plan.

1 29. Defendants Royal Bank of Canada and RBC Wealth Management
2 Company, formerly RBC Dain Rauscher, Inc., are “employers” pursuant to 29
3 U.S.C. § 630(b).

4 30. As a result of Defendants’ actions, Plaintiff has suffered irreparable
5 injuries, including but not limited to loss of pay, benefits and other economic losses.

6 **THIRD CAUSE OF ACTION**

11 contained in Paragraphs 1 through 30 and incorporates the same as though fully set
12 forth herein.

13 32. Plaintiff’s employment was wrongfully terminated by Defendants
14 Royal Bank of Canada and RBC Wealth Management Company without notice and
15 without cause immediately prior to Plaintiff vesting in the Plan.

16 33. Plaintiff is informed and believes that his employment was terminated
17 to prevent him from obtaining the benefits due him under the Plan. There exists in
18 California a strong, well-established public policy as embodied in the California
19 Labor Code which emphasizes the importance of prompt payment of employee
20 compensation.

21 34. Plaintiff is further informed and believes that he was terminated due
22 to his age. There exists in California a strong, well-established public policy as
23 embodied in the California Fair Employment and Housing Act, *California*
24 *Government Code* §§ 12900-12996, which prohibits discrimination against older
25 workers.

26 35. As a direct, foreseeable, and proximate result of Defendants’ conduct,
27 Plaintiff has lost income, employment, benefits, and career opportunities, and has
28 suffered other economic loss in an amount that exceeds \$300,000, the precise

1 amount of which will be proved at trial.

2 36. Defendants committed the acts alleged herein maliciously,
3 fraudulently, and oppressively, and with the wrongful intention of injuring Plaintiff,
4 and acted with an improper and evil motive amounting to malice. Alternatively,
5 Defendants' despicable conduct was carried out in conscious disregard of Plaintiff's

The date of this document is April 1, 2003

RBC

The description of the RBC Dain Rauscher Wealth Accumulation Plan (the "Plan") that follows is qualified in its entirety by the full text of the Plan, a copy of which is available upon request. Eligible persons are urged to review the terms of the Plan and to make any inquiries they feel necessary of the representatives of RBC Dain Rauscher Corporation (the "Company") named below prior to making their investment decisions. To obtain a copy of the Plan and additional information about the Plan and its administrators, the Committee (as defined below), you may contact Brent C. Sabin, Vice President, Benefits Manager, RBC Dain Rauscher, RBC Dain Rauscher Plaza, 60 South Sixth Street, Minneapolis, Minnesota 55402-4422; telephone (612) 371-7612.

A. General Nature and Purpose of the Plan

The Plan is a nontax-qualified, deferred compensation plan pursuant to which a select group of management or highly compensated employees of the Company and its participating subsidiaries (as defined below) will be offered the opportunity to elect, on an annual basis, to defer receipt of a portion of compensation to be earned with respect to the upcoming year. The Plan is designed to provide an opportunity for such employees to achieve wealth accumulation through employee deferrals, tax-deferred savings and investment options that support long-term savings and allow such employees to share in the Company's growth and profitability. Pursuant to an agreement between the Company and its sole shareholder, Royal Bank of Canada, a Canadian Chartered Bank with its principal place of business in Toronto, Ontario, Canada ("RBC"), RBC has agreed to be the obligor (a "Plan Obligor") for certain obligations under the Plan as described under "Plan Obligor; Status as Unsecured General Creditors" below.

B. Material Terms of the Plan

Eligibility. Employees eligible to participate in the Plan are any of the select group of management or highly compensated employees of the Company or its participating subsidiaries (defined under the Plan as a corporation, now or in the future, affiliated with the Company that adopts the Plan (with the Company's prior consent)) whose gross cash compensation (defined as "Recognized Compensation" for purposes of the Plan) exceeds \$150,000 per year, or whose compensation or production otherwise exceeds a level deemed appropriate by the Board of Directors of the Company (the "Board of Directors") or any committee established by the Board of Directors to administer the Plan (the "Committee") to include only such select group of management or highly compensated employees, in each case, as determined by the Committee in its sole discretion. The members of the Committee serve at the pleasure of the Board of Directors. Employees are first eligible for Plan participation on the first day of the month following the initial date of employment with the Company, or as otherwise determined by the Committee. Employees who are resident in Canada for purposes of Canadian income tax legislation are not eligible to participate in the Plan.

Election to Defer Compensation. Participants may enroll in the Plan by electing to defer a percentage of their gross cash compensation in excess of \$100,000 to be earned with respect to the Plan year ("Deferrable Compensation"). For some participants, as designated by the Committee, Deferrable Compensation will be defined as all gross cash compensation earned by

that participant with respect to the Plan year. Gross cash compensation is generally defined under the plan to include base salary, bonuses, and cash commissions earned by a participant with respect to the Plan year. Elections must be made no later than December 31 of the year immediately preceding the year in which such Deferrable Compensation will be earned or, with respect to employees who are first eligible to participate in the Plan during a given year, such employees must make an election within 30 days of initial employment, with such election to be effective with respect to Deferrable Compensation as of the first day of the month following the date of such election. In connection with designating an employee as being eligible to participate in the Plan, the Committee may designate a percentage of such employee's Deferrable Compensation that must be deferred (the "Mandatory Deferred Compensation"). The Committee may also designate all or a portion of such other compensation that must be deferred by participants (the "Special Deferred Compensation"). A participant may also elect voluntarily to defer a percentage of his or her Deferrable Compensation that the participant would otherwise earn with respect to services to be rendered in the next succeeding year (the "Voluntary Deferred Compensation"). A participant's total deferral opportunity with respect to any Plan year shall be the sum of his or her Mandatory Deferred Compensation, Special Deferred Compensation, and Voluntary Deferred Compensation (the "Deferred Amounts").

The Committee shall from time to time establish the maximum percentage of Deferrable Compensation that a participant may elect under the Plan. For the 2003 Plan year, the Committee has established 30% as the maximum percentage for participants who are not covered by any requirements for Mandatory Deferred Compensation. The maximum percentage for all other participants will vary as designated by the Committee.

Upon electing to participate in the Plan, a participant shall choose the form of the deemed investment of his or her Deferred Amounts by electing to credit such deferrals for any Plan year to one or more of the following:

- (1) his or her "Stock Account" (the bookkeeping account in which a participant's deemed investments in the common shares of RBC (the "Common Shares"), are credited);
- (2) his or her "Interest Account" (the bookkeeping account in which a participant's deemed investments are credited to earn a rate of return (the "Interest Rate"), as determined by the Committee); unless otherwise determined by the Committee, as of March 31, 2003 the Interest Rate shall be the 90-day LIBOR rate (reset quarterly) plus 0.5%;
- (3) his or her "Mutual Fund Account(s)" (the bookkeeping account(s) in which a participant's deemed investments in mutual funds, selected by the Committee from time to time, are credited);
- (4) such other accounts as the Committee may from time to time establish; or
- (5) a combination of the accounts described above.

Any election by a participant to have his or her Deferred Amounts credited to his or her Stock Account shall be irrevocable for all time thereafter. Any investment election by a participant regarding his or her Deferred Amounts may be changed with respect to future deferrals in accordance with the rules established by the Committee. If a participant fails to make an investment election, such participant's Deferred Amounts will be credited to his or her Interest Account.

Upon electing to participate in the Plan, a participant will also make an irrevocable election with respect to the timing of the distribution of amounts credited to such participant's accounts. As described more fully in "Distributions" below, a participant may elect to have such distribution made either (i) upon the earlier of a specified date (which date must fall on the last day of a calendar quarter) or the date of his or her "Separation" (as defined below) if prior to such specified date, or (ii) upon such Separation. If a participant fails to make a distribution election, his or her accounts will be distributed in two roughly equal annual installments in each of the two Plan years immediately following his or her Separation. As used in the Plan, "Separation" means the date of a Plan participant's separation of employment from the Company, a participating subsidiary or an RBC subsidiary (other than due to death, disability or termination for cause), including "Approved Retirement" (as defined below under "Vesting").

Deferred Compensation Accounts. Accounts for Plan participants will be established for bookkeeping purposes only and will not be considered as, or as evidence of the creation of, a trust fund or a transfer or other segregation of assets for the benefit of the Plan participants or their beneficiaries. The accounts will be composed of a Stock Account, a Matching Stock Account, a Mandatory Stock Account, an Interest Account, one or more Mutual Fund Accounts, a Cash Account and a Matching Cash Account, and such other accounts as the Committee may from time to time authorize. Such accounts shall be established and credited with the appropriate amounts as provided in the Plan. Crediting and pricing of participants' accounts shall occur on or about each payroll date.

Stock Account. For any Plan year, in connection with a participant's election to have a portion of his or her Deferred Amounts credited to his or her Stock Account, such participant's Stock Account shall be deemed to have been allocated the number of Common Shares, resulting from dividing such portion of the Deferred Amounts allocated to the Stock Account by the reported closing price per Common Share on the New York Stock Exchange as reported on or about each payroll date (the "Payroll Date Price").

Interest Account. If a participant elects to have a portion of his or her Deferred Amounts for any Plan year credited to his or her Interest Account, then such account shall be increased by the amount of deferred compensation so credited on or about each payroll date.

Mutual Fund Account. If a participant elects to have a portion of his or her Deferred Amounts for any Plan year credited to a Mutual Fund Account, then on or about each payroll date his or her appropriate Mutual Fund Account shall be deemed to have been allocated the number of units (including fractional units) of a "Mutual Fund" (as defined below) equal to the portion of his or her Deferred Amounts allocated to the Mutual Fund Account divided by the appropriate closing price, as determined by the Committee, on or about each payroll date.

"Mutual Fund" is defined under the Plan as the mutual fund investment vehicles selected from time to time by the Committee in its sole and absolute discretion.

Matching Stock Account. The Committee shall establish prior to the beginning of each Plan year the extent to which Deferred Amounts are eligible for Matching Contributions by the Company. Matching Contributions, in general, will vary with certain performance-based measures of the Company, or such other performance factors as determined by the Committee. If a participant becomes entitled to a Matching Contribution, then, after the end of the Plan year and at such time as the Committee shall determine, his or her Matching Stock Account will be deemed to have been allocated the number of Common Shares, resulting from dividing the amount of the Employer Match by the Payroll Date Price. Matching Contributions will be credited to participants' Stock Accounts and shall be irrevocable for all time thereafter (subject to the vesting requirements and forfeiture provisions discussed below).

Crediting of Investment Earnings. At such times as RBC declares dividends on its Common Shares, a determination will be made as to the number of Common Shares which are credited to a participant's Stock Account, Matching Stock Account and Mandatory Stock Account, the record date for such dividend, and an amount equal to such number of Common Shares multiplied by the declared dividend per Common Share in U.S. dollars (such dividend to be calculated without taking into account any and all Canadian withholding taxes to which such dividend might be subject, if actually paid) will be credited, on the payment date, initially to such participant's Cash Account and Matching Cash Account (if dividends are paid in cash) or such participant's Stock Account, Matching Stock Account and Mandatory Stock Account (if dividends are declared in Common Shares). Thereafter, all funds credited to a participant's Cash Account and Matching Cash Account as a result of cash dividends, shall be deemed to have been used to purchase Common Shares on dates determined by the Committee. The number of additional Common Shares purchased shall be equal to the number of Common Shares, derived by dividing the total amount of cash credited to the Participant's Cash Account and Matching Cash Account by the Payroll Date Price. The Company will not provide a Matching Contribution with respect to such deemed purchases of Common Shares credited to a participant's Stock Account, Matching Stock Account or Mandatory Stock Account.

As of the last business day of each month or such other date as the Committee may determine, an amount equal to a participant's balance in the Interest Account on the first business day of such month multiplied by the quarterly Interest Rate, as determined by the Committee, will be allocated to such participant's Interest Account. If a participant elects to transfer amounts out of his or her Interest Account, credits to such participant's Interest Account shall be prorated to reflect the number of days such transferred funds were held in such participant's Interest Account.

At such times as interest or dividends are paid or other distributions made in connection with a Mutual Fund ("Fund Additions"), a determination will be made as to the number of units (including fractional units) of the Mutual Fund which are credited to a participant's Mutual Fund Account on the interest or other distribution date, and an amount equal to such number of units multiplied by the amount of Fund Additions per unit will be credited, on the date such Fund Addition is paid or distributed, to such participant's Mutual Fund Account, or other fund determined by the Committee. Interest payments or other distributions will be deemed

reinvested in additional units of the Mutual Fund at prevailing market prices on the date of the interest payment or other distribution.

A participant's Cash Account shall not be credited with interest, and shall not be deemed to be invested in any interest-bearing item. Similarly, a participant's Matching Cash Account shall not be credited with interest, and shall not be deemed to be invested in any interest-bearing item.

Intra-Plan Transfers. A Plan participant may elect to have all or a portion of the amounts credited to any of his or her accounts transferred to any other accounts under the Plan (other than amounts credited to the Stock Account, Matching Stock Account and Mandatory Stock Account); provided, however, that no transfer of any account balance may be made into or out of a participant's Stock Account, Mandatory Stock Account or Matching Stock Account. The Committee shall determine the procedures and limits on intra-Plan transfers for each Plan year, and intra-plan transfers shall be effective as soon as practicable after a Participant's request is received by the Company. An intra-Plan transfer shall be initiated by submitting a request to the Company in such form as the Committee shall determine.

Vesting. All Voluntary Deferred Compensation amounts credited to the Stock Account, Interest Account, Mutual Fund Account and Cash Account (except for deemed investments credited to a participant's Matching Cash Account) of a Plan participant shall be fully vested. Subject to acceleration or modification by the Committee in its sole discretion, deemed investments credited to the Matching Stock Account and Matching Cash Account of a Plan participant, any Special Deferred Compensation amounts, and all Mandatory Deferred Compensation allocated to the Mandatory Stock Account or such other investment accounts as directed by the participant, shall become vested on the date or dates determined by the Committee. The Committee will announce any prospective change in the vesting schedule with respect to any Matching Contributions, Special Deferred Compensation or Mandatory Deferred Compensation prior to December 31 preceding each new Plan year.

All deemed investments credited to a participant's Matching Stock Account and Matching Cash Account, any Special Deferred Compensation amounts, and all Mandatory Deferred Compensation allocated to the Mandatory Stock Account or such other investment accounts as directed by the participant, will vest in full upon the death or disability (as defined in the Plan) of the participant. Similarly, subject to acceleration or modification by the Committee, deemed investments credited to a participant's Matching Stock Account and Matching Cash Account, any Special Deferred Compensation amounts, and all Mandatory Deferred Compensation allocated to a participant's Mandatory Stock Account or such other investment accounts as directed by the participant, that would not otherwise be fully vested in accordance with the schedule fixed by the Committee, will automatically vest in full upon the one-year anniversary of a participant's "Approved Retirement," which is defined under the Plan as the retirement or termination of employment of a participant who (i) has been an employee of the Company or any participating subsidiary for ten or more years at the time of separation or termination of employment, (ii) has entered into a non-competition, non-solicitation and related agreement in a form approved by the Committee and (iii) with respect to deferrals for all Plan years commencing on or after January 1, 2001, whose age upon Separation is at least fifty (50);

provided that, such vesting will be subject to forfeiture as set forth in the participant's non-competition agreement with the Company.

Forfeiture of Matching Contributions and Other Amounts. If a participant ceases to be employed by RBC, an RBC subsidiary or the Company due to his or her gross or willful misconduct during the course of his or her employment, including theft or commission of a gross misdemeanor or felony, all deemed investments credited to any Matching Stock Account or Matching Cash Account, any Special Deferred Compensation amount, and all Mandatory Deferred Compensation allocated to a participant's Mandatory Stock Account, will be forfeited, regardless of whether the vesting schedule has otherwise been satisfied with respect to such shares or assets, and the proceeds thereof will be deemed returned to the Company. Also, all amounts credited to a participant's Matching Stock Account or Matching Cash Account, any Special Deferred Compensation amount, and all Mandatory Deferred Compensation allocated to a participant's Mandatory Stock Account, that are not vested at the participant's employment termination date will be forfeited, except as otherwise described under "Vesting" above.

Distributions. Upon electing to participate in the Plan, a participant will also make an irrevocable election with respect to the timing of the payment of the amounts credited to such participant's accounts. A participant may elect to have such distribution made either (i) upon the earlier of a specified date (which date must fall on the last day of a calendar quarter; provided that, any distribution shall be made prior to the last day of a calendar quarter if such distribution would result in payments to a participant in more than one calendar year) or the date of his or her Separation if prior to such specified date, or (ii) upon such Separation.

Distributions that are made prior to the date on which Matching Contributions, Mandatory Deferred Compensation or Special Deferred Compensation are vested will, in general, result in the forfeiture of such contributions.

Distributions made pursuant to an in-service election are made in a single payment if the election is triggered by the date selected by the participant, or in two annual installments if the election is triggered by the participant's Separation prior to the date certain selected by the participant. Such distributions will be made on or about the date selected by the participant if the election is triggered by such date, or on or about January 15 of the two Plan years following the date of Separation if the election is triggered by the participant's Separation. Upon Separation, the first installment shall be equal to 50% of all amounts deemed allocated to a participant's accounts on the first payment date, and the second installment shall be equal to the remainder of all amounts deemed allocated to such participant's accounts on the second payment date (in each case, less any amounts required to be withheld as described under "Tax Withholding" below). 

Distributions pursuant to an election to receive distributions upon Separation or Approved Retirement will be made to participants in two annual installments on or about January 15 of each of the two Plan years following the year of Separation in the manner described in the preceding paragraph; provided, however, that a participant shall be entitled to change, on a one-time basis only, his or her participant's Separation election with respect to an Approved Retirement to extend the number of post-Approved Retirement installment payments described above from two annual installments to three, four or five annual installments; and provided further, that such change in his or her Approved Retirement election must be made at

least twelve (12) months prior to the effective date of such participant's Approved Retirement. A participant's failure to make a distribution election will result in a default election to receive a distribution in two annual installments on or about January 15 of each of the two Plan years following the year of Separation in the manner described in the preceding paragraph.

Distributions following death or disability (as defined in the Plan) shall be made in a single payment as soon as administratively feasible after such event.

All distributions from the Stock Account, Matching Stock Account and Mandatory Stock Account will be in the form of Common Shares, less the number of Common Shares equal to the amount of tax required to be withheld. All distributions from other accounts will be in cash. All Common Shares distributed under the Plan, if any, shall be, at RBC's option, Common Shares that have been previously issued and that are currently trading in the market, or, subject to the approval of the board of directors of RBC and to regulatory approval, authorized but previously unissued shares. RBC has filed a Registration Statement on Form S-8 with the Securities and Exchange Commission covering the deferred compensation obligations under the Plan and the Common Shares that may be distributed under the Plan. Distribution from accounts of a Plan participant upon such participant's death shall be made to the participant's designated beneficiary.

Charges and Deductions to Accounts. As of April 1, 2003, Fidelity Investments became administrator under the Plan. Fidelity Investments charges the Company an annual record-keeping fee which is apportioned ratably against participants' accounts. Additionally, to offset additional costs incurred by offering mutual fund investments in the plan, a special quarterly fee will continue to be deducted from the participant's Mutual Fund Account. The amount of the special quarterly fee will be determined by multiplying the value of the participant's Mutual Fund Account, by a decimal, which is currently 0.000625. From time to time, the Committee will review, and may change, the record-keeping fee and the quarterly mutual fund fee calculation.

Plan Obligor; Status as Unsecured General Creditors. RBC shall be the Plan Obligor for amounts payable to participants pursuant to distributions from all accounts; provided, however, that, except as described in the following sentence, the Company shall be the Plan Obligor with respect to the Mandatory Stock Accounts and their related Matching Contributions. Notwithstanding the foregoing, RBC shall be the Plan Obligor with respect to all accounts of participants who are residents, for tax purposes, in California and Arizona during the Plan year. All participants are general, unsecured creditors of the relevant Plan Obligor with respect to amounts payable from the accounts described herein.

The participants and beneficiaries shall not have any secured or preferred interest by way of trust, escrow, lien or otherwise in any specific assets of RBC, the Company, or any participating subsidiary. If a Plan Obligor, in fact, elects to set aside monies or other assets to meet its obligations under the Plan (there being no obligation to do so) through the creation of a trust or otherwise, such monies or other assets shall be subject to the claims of its general creditors, and neither any participant nor any beneficiary of any participant shall have a legal, beneficial or security interest therein.

Certain Federal Income Tax Consequences. Due to the complexity of the applicable provisions of the Internal Revenue Code of 1986, as amended (the "Code"), this summary of certain federal income tax consequences only sets forth the general tax principles affecting the Plan. These general tax principles are subject to changes which may be brought about by subsequent legislation or by regulations and administrative rulings, which may be applied on a retroactive basis. Participants may be subject to state or local income taxes as a result of their election to defer compensation pursuant to the Plan and should refer to the applicable laws in those jurisdictions.

Neither RBC, the Company nor any participating subsidiary has obtained a ruling from the Internal Revenue Service (the "IRS") regarding the federal income tax consequences associated with participation in the Plan. Accordingly, each Plan participant should consult his or her own tax counsel on questions regarding tax liabilities arising upon any election to defer compensation pursuant to the Plan and any distributions made to such participant pursuant to the Plan.

Plan participants remain general, unsecured creditors of the Plan Obligors with respect to the right to receive any distributions pursuant to the Plan. In addition, the Plan provides that the election to defer any portion of a participant's compensation is made prior to the performance of the personal services for the Company or any participating subsidiary to which the compensation relates. Accordingly, the Company believes that Plan participants are not expected to recognize either the deferred amounts or the matching contributions as income compensation for federal income tax purposes until such amounts are actually paid or distributed to them under the Plan; provided that, such amounts may still be subject to FICA taxes at the time they would have been paid but for the participant's deferred election. The participant's employer will be allowed an income tax deduction in the amount that, and for its taxable year in which, a Plan participant recognizes compensation income to the extent such amount satisfies the general rules concerning deductibility of compensation. As described above and in "Tax Withholding" below, it is expected that the Company will be required to withhold or otherwise collect income and other payroll taxes upon such amounts as required under Section 3402 and certain other sections of the Code.

Tax Withholding. All distributions will be treated as wages for tax purposes and therefore will be made net of all applicable income, FICA and payroll taxes required to be withheld. In connection with any event that gives rise to a federal or other governmental tax withholding obligation on the part of the Company or any of its subsidiaries or affiliates relating to amounts under the Plan (including, without limitation, FICA tax), (i) the Company may deduct or withhold (or cause to be deducted or withheld) from any payment or distribution to a participant, whether or not pursuant to the Plan, or (ii) the Committee shall be entitled to require that the participant remit cash to the Company or any of its subsidiaries or affiliates (through payroll deductions or otherwise), in each case in an amount sufficient in the opinion of the committee to satisfy such withholding obligations.

No Compensation Under the RBC-U.S.A. Retirement and Savings Plan. The Matching Contributions and any other amounts contributed by the Company under this Plan will not constitute "Recognized Compensation" for purposes of calculating retirement benefits under the RBC-U.S.A. Retirement and Savings Plan, the Company's tax-qualified, retirement benefit plan.

Voting Rights. Accounts under the Plan are bookkeeping accounts and, accordingly, Plan participants will not have any voting rights with respect to any Common Shares or any units or other interests in Mutual Funds deemed allocated to any Account.

Plan Administration. The Plan will be administered by the Committee. The Committee has the full power and authority to make all determinations provided for in the Plan, including without limitation promulgating rules to address potential conflicts of interest; provided that, the Board of Directors has the full power and authority to make determinations with respect to the Plan having the effect of materially increasing the cost of the Plan to the Company or any participating subsidiary. The Plan may be amended or terminated at any time by the Committee or the Board of Directors, including, without limitation, (i) to ensure that neither the Plan Obligors nor the participants are subject to adverse Canadian or United States tax consequences and (ii) to modify the form of distribution of participants' accounts. Plan participants will be responsible for all administrative charges incurred with respect to the Plan to the extent such expenses are not paid by the Company, including the costs of outsourced recordkeeping (which expenses will be allocated equally among the participants' accounts). If any Plan participant or beneficiary of a Plan participant disagrees with any determination that has been made for payment under the Plan, a claim may be presented in accordance with procedures set forth in the Plan.

Amendments to and Termination of Plan. The Plan may be amended or terminated at any time by the Committee or the Board of Directors, but no such amendment or termination shall have the effect of (i) reducing the vested portion of amounts already credited to the Stock Account, Cash Account, Interest Account, Mutual Fund Account, Matching Stock Account, Matching Cash Account or Mandatory Stock Account or (ii) extending the time of distribution of such participant's accounts, without the consent of such participant. The Plan will continue in effect until so terminated. Upon termination all amounts credited to Participants' accounts and not forfeited may be distributed.

ERISA Matters. Although the Plan is not qualified under Section 401 of the Code, the Plan may be an "employee pension benefit plan" as defined by the Employment Retirement Income Security Act of 1974, as amended ("ERISA"). However, if the Plan is determined to be an "employee pension benefit plan," the Company believes that it constitutes an unfunded plan of deferred compensation maintained for a select group of management or highly compensated employees and, therefore, it is exempted from many ERISA requirements. A statement has been filed with the Department of Labor to comply with ERISA reporting and disclosure requirements.

Funding. The Plan does not require that any deemed investments under this Plan be funded by the Company.

Reporting. As soon as administratively feasible after each calendar quarter end, the Company will prepare and deliver to each participant a report showing (i) the amounts credited to the participant's accounts since the last report from the Company, and (ii) the amounts of any distributions made since the last report. At its discretion, the Company may prepare and deliver more frequent reports to Plan participants.

C. Information Concerning Investment Alternatives

As described above, Plan participants will be entitled to determine on an annual basis how their Deferred Amounts under the Plan will be credited into accounts deemed invested in RBC's Common Shares Interest, or Mutual Funds.

Mutual Fund Information – Fund Descriptions

Fund Name	Type of Fund	Goal	What it Invests In
American Balanced Fund	Growth and Income Balanced Fund	To provide current income and long-term growth of capital and income while preserving your investment	A broad variety of common and preferred stocks, corporate bonds, and government securities. The fund will have at least 25% of its assets invested in fixed income securities.
U.S. Equity Index Combined Pool	Index Fund	Seeks to approximate the composition and total return of the Standard & Poor's 500 Index	Invests primarily in the common stocks of the 500 companies that make up the S&P 500.
Vanguard Large Cap Stock Fund	Large Cap Mutual Fund	Seeks capital growth and income	Normally the fund invests in a portfolio of equity securities, including preferred stocks, common stocks, and securities convertible into preferred and common stock. The fund emphasizes a "value" style of investing, seeking well established, undervalued companies believed to possess the potential for capital growth and income. The fund may invest up to 15% of its assets in securities of foreign issuers, which may involve greater risk than owning securities of U.S. issuers.
Growth Fund of America	Large Cap Mutual Fund	Seeks to provide long-term capital appreciation	A diversified portfolio consisting primarily of common stocks. The Fund may also invest in convertible securities, nonconvertible preferred stocks, and stocks of issuers outside the United States. The Fund has the flexibility to invest wherever the best growth opportunities appear to be.
Renaissance MidCap Fund	Mid Cap Mutual Fund	Seeks to provide long-term capital growth	The fund normally invests at least 80% of its net assets in equity securities of mid-sized companies that fall within a range of companies in the Standard & Poor's Mid Cap 400 Composite Index at the time of purchase by the fund. Investments are primarily in common stocks. The advisor uses quantitative analysis to select stocks for the fund's portfolio that the advisor believes offer attractive growth opportunities and at reasonable prices.

Mutual Fund Information – Fund Descriptions

Fund Name	Type of Fund	Goal	What It Invests In
Focus Fund	Small Cap Mutual Fund	Seeks to provide long-term growth	The fund invests in small to mid-cap companies that have substantial capital growth potential. These companies frequently have little or no following by the major stock brokerage firms. The fund looks for stocks of businesses that are selling at what management believes are substantial discounts to prices that accurately reflect their future earnings prospects. The fund's management takes a "focused" approach to investing, meaning the fund may from time to time invest in a limited number of securities and/or industries, and its top ten holdings may constitute 50% or more of the fund's assets. Stocks of small companies may lack the financial resources, product diversification and competitive strengths of larger companies.
Windsor Core Growth Fund	Small Cap Mutual Fund	Seeks to provide long-term capital growth	The fund invests primarily in the common stocks of growing companies. These companies are usually small to mid-sized with market capitalizations of less than \$5 billion at the time of initial purchase. The fund's management uses a "bottoms up" fundamental analysis to look for companies that the fund's management believes are stable and have the potential to grow steadily for long periods of time. Stocks of small companies may lack the financial resources, product diversification and competitive strengths of larger companies.
Euro Pacific Growth Fund	International Mutual Fund	To increase the value of your investment over the long term through capital growth	The fund invests primarily in stocks of companies that do most of their business outside the United States. Normally, at least 65% of the fund's assets will be invested in securities of companies from Europe or the Pacific Basin. The fund can invest in many types of companies, ranging from large multinational corporations located in major world markets, to smaller companies located in developing countries. Developing (or emerging market) countries may be subject to more frequent and greater price changes than securities of more developed countries. Foreign investments, especially in developing countries, involve greater risk and may offer greater potential returns than U.S. investments. These risks include political and economic uncertainties of foreign countries, as well as the risk of foreign currency fluctuations. There are additional risks associated with funds that concentrate their investments in one geographic area.
